

"ALCO SYSTEM" CLOTHES

are the highest ideal of the tailors art. They are garments of character, individuality and true worth. The models are always graceful and becoming. "ALCO" Clothes fit and feel comfortable from first to last. A permanent shape is tailored into them at the factory and no amount of hard wear will knock it out. They are made of excellent quality fabrics in all the season's most approved colorings and patterns.

You can pay more for a suit than we would charge you for an "ALCO" suit, and you can pay less, but, considering quality, wear, workmanship, material and fit you cannot buy a suit that has all these features so carefully worked out for the price of our "ALCO" suits.

We stand ready to prove this to you any time you say. Just come in and try on an "ALCO" suit.

ANOTHER METEOR FALLS IN MEXICO

First One Has Been Found. Many School Entertainments at Dublin.

Colonia Dublin, Mexico, May 13.—Another meteor has been seen in the eastern skies. This time it fell within a few weeks. Rumor has it that the meteor which fell in Cave Valley has been found. A traveler was camping near and when it descended the light and heat were so intense that he had to shield his eyes from the brilliant rays.

The eighth grade graduates gave the seventh grade a party at the home of Timothy Jones. There were more than 50 in attendance. The lawn was lighted with Chinese lanterns.

The graduates of 1909 gave the 1910 graduates a party at the home of Prof. Cardon, when a very enjoyable evening was spent.

The fifth grade participated in a class party at the home of Gaskel Romney.

A smaller crowd gathered at the home of Willard Call and enjoyed themselves in a similar manner.

The little child of Professor and Mrs. E. L. Cardon is quite ill.

Forty-seven people came from Morelos to be present at the commencement exercises at Colonia Juarez.

They say the people there are very busy putting up their new grain mill. They are neglecting their farms to quite an extent in order to work on the mill. As a consequence work has not been kept up on the irrigating ditches and everything is in a sorry state.

Mrs. G. A. Gillespie, who has been ill, is recovering.

Mrs. G. A. Hyatt is visiting in Safford with Mrs. Alex Hunt.

Hiram Schoonmaker, of New York city, has continued his journey to the Grand canyon, accompanied by his nephew, W. R. Chasab, of this place.

Probate Judge T. S. Burch is ill.

MANY RICH MINES NEAR NAVAJOA, MEX.

Record Producers Located in District—Railway Connections Proposed.

Navajoa, Son. Mex., May 13.—J. J. Smith, president of the Jacolitas Mining company, in the Soledad district, passed through Navajoa with 25 pounds of gold, the result of a cleanup from a month's run of the 10 stamp mill. There are about 300 men working in the camp.

The Southern Pacific, a rich lead and silver proposition eight miles north of Navajoa, on the Mayo river, will soon begin operations on a large scale.

Todd Woodworth, general manager of the Mary Mining company in the Ano Nueva district, states the company has completed a 20 stamp mill and will soon be milling high grade ore, which has been encountered. The force has been increased from 100 to 500 men. The branch of the Southern Pacific railway, from Navajoa to the coast, a distance of 25 miles, will soon be completed.

Record Producing Mines.

At Minas Nuevas, 25 miles east of Navajoa on the Alamos branch, the Zambana is working a large force of men cleaning up the old dumps and getting in shape to begin operations on a large scale. This mine has already produced in the neighborhood of \$7,000,000.

The Quintera, three miles south of the Zambana on the same contact, which will soon begin operations under new management, belongs to the Bank of Egypt, Paris, France, and has produced more than \$2,000,000.

The old Promontorio, a few miles farther south, has between eight and nine million in its credit. It has been proved by these mines that the ore goes down to a great depth.

The Santo Domingo in the same district is working a full force, and taking out some of the richest ore that has ever been seen in that section. The company will soon begin the erection of a mill to treat their ore.

Navajoa Attracts Miners.

Navajoa is filling up with mining men attracted here by the rich discoveries of gold ore along the Mayo river. Everybody calls it a "Poor man's camp" on account of the shipping ore being available near the surface. Very little money is required to make a "showing."

There are hundreds of old aztec ruins along the Mayo river. Years ago the Spanish found out the gold the pirates fought for in the Spanish Main.

A number of eastern capitalists have been here for the past month looking over the field with the view of building a railroad from Navajoa northeast along the Mayo river and through the rich gold camp of Soledad, thence north through the Sierra Madre moun- tain range to the coast.

This will open up the rich country that baron Humboldt called the "store- house of the world." This line if built, may eventually become a part of the Rock Island, thus giving it an outlet to the Pacific, making El Paso the gateway and outfitting point for the mining regions in Chihuahua and Sonora.

SUBIRRIGATION SYSTEM FOR VALENTINE FARMERS

Prof. Granger, of San Antonio, with local machinery and Malina; M. E. Welch and Miss Clara Orozco Marry.

Valentine, Tex., May 13.—Prof. Granger, who has charge of an extensive subirrigation farm near San Antonio, is employed by the Valentine Development company to install a complete system on land near Valentine. Some of the machinery has arrived.

The system includes underground conduit for water supply and smaller laterals 15 to 20 feet apart, leading out on either side.

It is operated according to hydraulic principles, which afford uniform and equal distribution of the water to the soil.

By this system the Valentine farmer will be placed in absolute control of both soil and water.

At the home of the bride's sister was solemnized the wedding of Clara Orozco and M. E. Welch, W. A. Foley officiated. Mr. and Mrs. Welch will occupy the home already prepared by Mr. Welch.

RESULTS EXCEEDED HIS EXPECTATIONS

"For a number of years I was an invalid from a combination of troubles. I suffered terribly from constipation and piles, and was so stiffened with rheumatism that I could not arise without assistance. I was also troubled with dizziness. My stomach was out of order, my appetite fickle, I felt dull, weak and tired all the time, and was in a generally rundown condition.

"My wife and daughter having both used the Cooper remedies with beneficial results, I decided to try them. They proved helpful beyond all expectations. The New Discovery soon put my bowels into good condition, and the piles disappeared. My appetite improved, and I began to relish my meals, having no difficulty in digesting all that I ate. The dizziness soon left me and has not returned.

"I used Cooper's Quick Relief Lintment as an aid to the New Discovery for my rheumatism, which has not troubled me now for a long time. The Cooper remedies worked wonders for me."

L. T. Cooper, whose medicine was used by Mr. Perkins, claims that stomach trouble is responsible for nearly all illness, and that if the stomach is restored to normal and healthy activity, such diseases as rheumatism, kidney and liver troubles, etc., will quickly disappear. His preparations have certainly made a remarkable record. We are agents for them in this community—Kelly & Pollard.

In an experiment recently made by John Perkins, residing on Rural Route No. 2, near Miller, N. H., the results obtained far exceeded his expectations. Mr. Perkins was so pleased that he made a statement for general publication, saying:
